Examiner's Statement of Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 12 and 13 are allowable for setting forth a corrugated fin cutting device comprising a pair of worms engageable with a corrugated fin material, a guide piece having a top portion smaller in width than a space formed between the worms so that the top portion is insertable between adjacent shoulder portions of the corrugated fin material, and a cutting blade.

For example, Maruyama (4,523,500) teaches a corrugated fin cutting device comprising a worm 101 engageable with a corrugated fin material, a guide piece 111 and a cutting blade 113. Patent Abstracts of Japan (EPO 05023912), hereinafter the Abstract, teaches a corrugated fin cutting device comprising a pair of worms engageable with a corrugated fin material. While it would have been obvious to one skilled in the art to replace one worm in the Maruyama's device with a pair of worms as taught by the Abstract, it would not have been obvious to make the guide piece in Maruyama having a top portion smaller in width than a space formed between the worms so that the top portion is insertable between adjacent shoulder portions of the corrugated fin material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
